Research Development supports faculty efforts to find and secure research funding and thereby accomplish their research and career development goals.

That support includes:

**Find the best funding opportunities**
- Conduct searches
- Train faculty to use subscription-based funding databases

**Support high quality proposal development**
- Provide resources for “marketing” proposals
- Provide resources for high quality proposal writing
- Review and edit proposals
- Facilitate proposal peer reviews

**Conduct seminars about specific funders**
- Detailed presentations on specific funders
- Past seminars include: Fulbright Scholars Program, USDA, Department of Defense, NSF, NIH, NASA
- Lessons learned from successful BYU funding recipients

**Provide timely research development information**
- Funding opportunities, national trends, upcoming RD events via e-newsletters and targeted emails

**Facilitate Teaming**
- Focus on multidisciplinary opportunities
- Help form and support opportunity pursuit teams
